EXPERIENCE AN ULTRA LIGHTWEIGHT AND STABLE X-RAY SYSTEM

EzRay Vet™ Cart

Mobile Intraoral X-Ray Cart

- Expedites your dental treatment procedures
- Provides trouble-free workflow
- Minimizes anesthesia risks or restraint injuries
ERGONOMIC PATIENT DESIGN

Acquire clear images with a 0.4mm focal spot
Regardless of which intraoral sensor you use, the EzRay Air minimizes blur and provides additional diagnostic value with a 0.4mm focal spot.

Ergonomic design for safety and efficiency

[ I/O Sensor Clip ]
Sensor holder and cable management

[ Round Shape Design ]
Contoured Edges – Ergonomic, modern design

[ Non-Drifting Arm ]
The strong and stable arm allows accurate and stable positioning

[ Lightweight Tube Head ]
Ultra-lightweight tube head enables one-hand operation with high stability

[ Laptop Tray ]
Supports up to 17” laptop computer

[ Easy Grip ]
The strong hand grips support easy movement of the system

[ Caster Wheels ]
Large, locking wheels provide mobility and safety

[ Stable Base ]
Perfectly counterbalanced base ensures stability
Lightweight for safe and easy use

CNT technology
Smaller x-ray tube
Reduced Electronics
Lightweight for safe and easy use
Intuitive control
Easy to set, easy to read
Smart angulation
Automatically adjusts exposure settings

The 5.6 lbs lightweight tube head makes it easy to handle and position, producing a faster workflow.

Smart angulations exposure compensation

Acquiring certain areas of the mouth are difficult to image, such as the rostral and caudal maxilla or the rostral mandible, due to one structure superimposed over an area of interest or difficult sensor placement. When parallel imaging techniques cannot be used, the tube head must be angled appropriately to capture these images. X-ray operators often do not change exposure settings and image quality will vary as a result of this angulation. The EzRay Vet Cart can optimize an image exposure setting based on the angle of the tube head.

Smart dial for all functions

The operating panel located on the tube head creates a simpler and producing faster workflow. The Smart Dial has all the settings in one dial, streamlining the workflow and decreasing preparation time. There is no need to remember complicated controls panel buttons and configurations.
Mobile intraoral x-ray cart with carbon nanotube x-ray technology obtain high quality diagnostic images
